

About Us:

Started in 2002 Yemota Systems and Solutions Pvt. Ltd. is an ISO 9001:2008,14001:2004, OHSAS 18001:2007 certified company. Based in the Special Industrial Zone in Govindpura, Dist. Bhopal in the state of Madhya Pradesh. We are strategically positioned to deliver our clients with efficient & innovative products in LEDs, Traffic Signals, Inverters, UPS, Stabilizers, Solar Inverters and other customized electronics and electrical products. We have successfully launched our commercial products under own brand "ENRISE".

Yemota Systems and Solutions Pvt. Ltd. is also channel partner with Ministry of New & Renewable Energy (MNRE) for Under Grid Connected Rooftop and Small Solar Power Plants Programme.

As a one stop shop, we provide our clients an end to end experience starting from conceptualization of an idea moving on towards implementation of that idea and ending with after sales service. Our wide network of associates gives us the perfect platform to manufacture virtually any lighting & electrical product.

We pride ourselves in providing:

- *Innovative & Customized Products*
- *Strong Leading Designs*
- *Premium Quality Products*
- *Timely Deliveries*
- *Competitively Priced Products*
- *Quick Return on Investment*
- *Warranty on all our Products and most important of all*
- *Effective Communication*

Quality Policy

Yemota Systems and Solutions Pvt Ltd is committed to manufacture and supply consistent quality products to achieve customer satisfaction in Performance & Reliability and to continual improvement in all processes leading to product realization.

We have complete range of Electronics products and are committed to get the status of India's most trusted OEM by multiple growth of our organization.

We are committed to provide the products to our customers which are Custom designed at reasonable cost, speedy development & delivery with highest quality standards. Our Products have created a name not just for us, but also for our esteemed Customers by using latest technology & manufacturing process. We enjoy Customer satisfaction by providing quality product & speedy services.

We are looking for Trainees for our factory for our assembly line. Suitable candidates will be given an opportunity to experience and learn the latest developments in the field of electronics. Selected candidates will undergo training for a period of 180 days. On successful completion of training, they will be absorbed into the regular payroll.

We look forward for your response and give us a date, so that our technical team can come do a campus interview

Warm Regards

ARUN RAJ R
Director
